# ANU Educational Fellowship Scheme News

August 2016 Issue no. 19

## From the DVCA

It is with great pleasure that I report on the activities in the first half of 2016 by the ANU Educational Fellowship Scheme.

From January to July, the EFS has awarded no fewer than 74 new Higher Education Academy fellowships. Our new Principal Fellows, Senior Fellows, Fellows, and Associate Fellows come not only from ANU, but also from 11 other universities in Australia and New Zealand. This brings the total of EFS fellows to 430, with 253 at ANU and 177 at 20 other universities in Australia, New Zealand and China.

These figures show how the interest in, and demand for, professional recognition for those who teach and support learners in Australasian universities is continuing to grow. With the demise of the Office for Learning and Teaching, such recognition will have to be nurtured within the higher education sector and its institutions more directly. I am proud that ANU is playing such a significant leadership role in this.

One example of such leadership

was the hosting at ANU in May of the first *Australasian Symposium on the Professional Recognition of University Educators*, as the culminating event organised by EFS Co-Chair, Dr Beth Beckmann, as part of her prestigious National Teaching Fellowship. The Symposium attracted more than 70 participants, representing the Higher Education Academy (UK), Ako Aotearoa (New Zealand) and the Office for Learning & Teaching, as well as 20 universities across Australasia. This international gathering, and the first *ANU Educational Fellowship Scheme Colloquium* held the following day, were both described as having created a real 'buzz' around the ideas of professional recognition, and especially around the practice as demonstrated by ANU. The outcomes include a new international subscription structure from the HEA, to allow more universities to participate, and a new level of future engagement with HEA nationally, including HEA events being hosted in Australia by ANU and other subscribing universities.

Of course, none of this could happen without the 100% commitment of the EFS team based in CHELT, impeccably led by Co-Chairs Dr Beth Beckmann PFHEA and Professor Michael Martin PFHEA, and all the EFS fellows who contribute to the peer review processes of refereeing, mentoring and assessing.

In the rest of the newsletter, you can read more about the Symposium, Colloquium and other events at which the EFS has been discussed already this year, about the service contributions of EFS fellows, and about the new processes in place to help staff prepare and submit their applications.

I congratulate all our new fellows, listed below, and welcome them to the EFS as university educators whose experiences, professional practices and commitment to professional values have been acknowledged, and whose contribution to the success of our students' learning experiences we recognise with great thanks.

## EFS fellows create new Turnitin practice Wattle site

Vivien Silvey FHEA, who is a Learning Adviser at the ANU Academic Skills and Learning Centre (ASLC) recently led a project funded by an ANU Teaching Enhancement Grant to develop a Wattle site for students to practice using Turnitin and learn more about writing with academic integrity.

She was joined on the project by ASLC Manager Tess Snowball SFHEA, colleagues from ANU Online and project officer Stephanie Kizimchuk AFHEA. In its first week, the practice site attracted more than 1,000 students.

## Tiffany Cone AFHEA

After graduating from ANU with her PhD, Dr Tiffany Cone AFHEA took up a fellowship teaching filmmaking at the Asian University for Women in Bangladesh, and now has a full-time faculty position there teaching three courses: National Cinemas in Asia, Writing Ethnography, and Anthropology of Religion. Tiffany tells the EFS she is *"drawing on tips and advice from the APD and EFS Fellowship training all the time ... I feel very lucky to have this position and teach everything I've always loved"*.

## EFS fellows honoured as recipients of 2016 ANU Vice-Chancellor's Awards for Excellence in Education

## Senior Fellows design new interdisciplinary anatomy and art undergraduate course

Dr Alexandra Webb SFHEA and Associate Professor Krisztina Valter SFHEA, both from the ANU Medical School (CMBE) and Elisa Crossing from the ANU School of Art have collaborated to convene a new interdisciplinary science and art course. The first iteration of *Exquisite Corpse - Insight Into The Human Body* was held during the Winter Session 2016.

Building on the centuries' long relationship between anatomy and art, the course was designed for medical, science and art students to gain knowledge and visual comprehension of the structures that compose the human body. Students explored the structure and function of the body using a range of two-dimensional and three-dimensional materials and processes.

In addition, each student researched and created an independent project presented at the course's conclusion at an exhibition attended by staff, students, families and friends.

BIOL2222 'Exquisite Corpse' Course Convenors Associate Professor Krisztina Valter (SFHEA), Elisa Crossing and Dr Alexandra Webb (SFHEA).

Tess Johnson AFHEA (centre) with Professor Kieran Kirk (Dean CMBE) and Lucy Kirk.
